Education

Arizona State University

Bachelor of Science, Software Engineering Honors: cum laude

2017 – 2021

Mesa, AZ

Experience

Cognizant

June 2021 – Present

Associate Full Stack Developer

Remote

- Completed in-house academy training over the course of 15 weeks focusing on Java Spring Boot, HTML/CSS/JS, React, and AWS Deployment. Culminating to a Full-Stack Application called Tun3rs R Us, in the final few weeks of training.
- Provided prototypes to clients within the Retail-Consumer-Goods sales team.
- Implemented, styled, and explored various Libraries/APIs to create an e-commerce Retail/Beauty React Application. Able to branch out to other individual projects including NFC/GeoTech React native app, and data visualization with D3 and React.
- Lead team demos and stand ups with clients and upper business unit executives.

Projects

Tun3rs R Us

- A full stack E-Commerce Website built from scratch to provide high quality performance parts to tuner enthusiasts around the world.
- Utilized Springboot back end utilizing a MongoRepository that saved product items to a MongoDB Atlas Instance. Front end utilized React and media queries for the presentation layer. Utilized Axios HTTP calls that connected product items JSON to be displayed onto front end.
- Deployed back end via Elastic Beanstalk and front end hosted on AWS Amplify. Demoed to Full Stack Engineering Community Managers on our "graduation day".

Fenoto Technologies Inc. UI/UX Capstone Project

- Performed User Experience Design Cycle to create a Web/Mobile Application for Fenoto by creating User Personas, Iterating and Prototyping Designs, and implementing HTML/CSS/JS Mockups.
- Designed and programmed a Dashboard with a focus on portraying Big Data in a clean and informative fashion, and presented prototypes to the Product Manager.
- Facilitated Sprint Planning Meetings by iterating PM and Customer Feedback into our backlog, and addressed peer feedback within the team.

Skills

Technologies React, HTML/CSS/Javascript, Java, AWS, React Native, Agile, Jira, TensorFlowJS, MediaPipe
