EXPERIENCE

Colorado Legislative Council

October 2022 - Present

Associate Application Developer → Application Developer

Denver, CO

- Developing in house applications to improve the Legislative Process for the Colorado State Legislators.
- Utilize Typescript and Redux to provide a history based rich text editor experience with SlateJS. Developed Printing Experiences that match specific criteria to Colorado Red Books with Spring Boot.
- Manage AWS Deployments, MySQL instances, and IT tickets to ensure legislative titles and documents remain up to date and are easily accessible to Legislative staff and applications.
- Reducing third-party overhead and administration by providing high quality in house solutions.

Cognizant

June 2021 - October 2022

Associate Full Stack Developer

Remote

- Completed in-house 15 week academy training on Full Stack Development (Spring, React, SQL, AWS).
- Immediately placed within the Retail-Consumer-Goods Sales Division after graduation. Provided rapid prototyping capabilities to clients and spearheaded RCG to start transitioning off of PPT/PDF demos.
- Created and iterated over a next generational e-commerce Retail/Beauty Application. Utilized Media pipe libraries to combine retail use-cases with facial tracking and gesture based interactions.
- Managed several different projects utilizing NFC/GeoTech, D3 Data Visualization, and WebXR applications with our Cognizant India and Netherlands teams.
- Owned products by leading team demos and stand ups with clients, upper management, and upper BU executives.

PROJECTS

Us. We. Together.

January 2024 - March 2024

Tech Lead

Denver, CO

- Tech Lead for the "Us. We. Together." Movement that envisions a future where health care workers thrive in safe, supportive, and empowering work environments.
- Developed/Deployed a responsive Brand Hub and blog using React and Tailwind CSS for rapid styling and seamless mobile integration, while also launching the merchandise site built on WordPress.

Tun3rs R US

- Crafted a high-performance E-commerce platform for auto enthusiasts worldwide using Springboot, MongoDB, React, Axios, deployed on Beanstalk and Amplify.

EDUCATION

Arizona State University

M.S.E. in Software Engineering.

August 2023 - Present

B.S. in Software Engineering, cum laude.

August 2017 - May 2021
